

## LAH-300-225-SF

Acoustically absorbent blade elements specifically designed to reduce the level of noise transmitted through the opening

### SYSTEM ATTRIBUTES

13 Sound Reduction Index  $R_w$  (dB)

C Max. Rainwater Rejection Class

3 Aerodynamic Performance Class

46 Typical Mass per Unit Area ( $\text{kg/m}^2$ )

300 Louvre Blade Depth (mm)

225 Louvre Blade Pitch (mm)

Refer to datasheet number 113 for full technical details
