

LAH-300-105-SF

Acoustically absorbent blade elements specifically designed to reduce the level of noise transmitted through the opening

SYSTEM ATTRIBUTES

- 19

Sound Reduction Index Rw (dB)
- B

Max. Rainwater Rejection Class
- 4

Aerodynamic Performance Class
- 64

Typical Mass per Unit Area (kg/m²)
- 300

Louvre Blade Depth (mm)
- 105

Louvre Blade Pitch (mm)

Refer to datasheet number 112 for full technical details
